Work Station — caminhos compostos — 01

Tela vazia.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 02

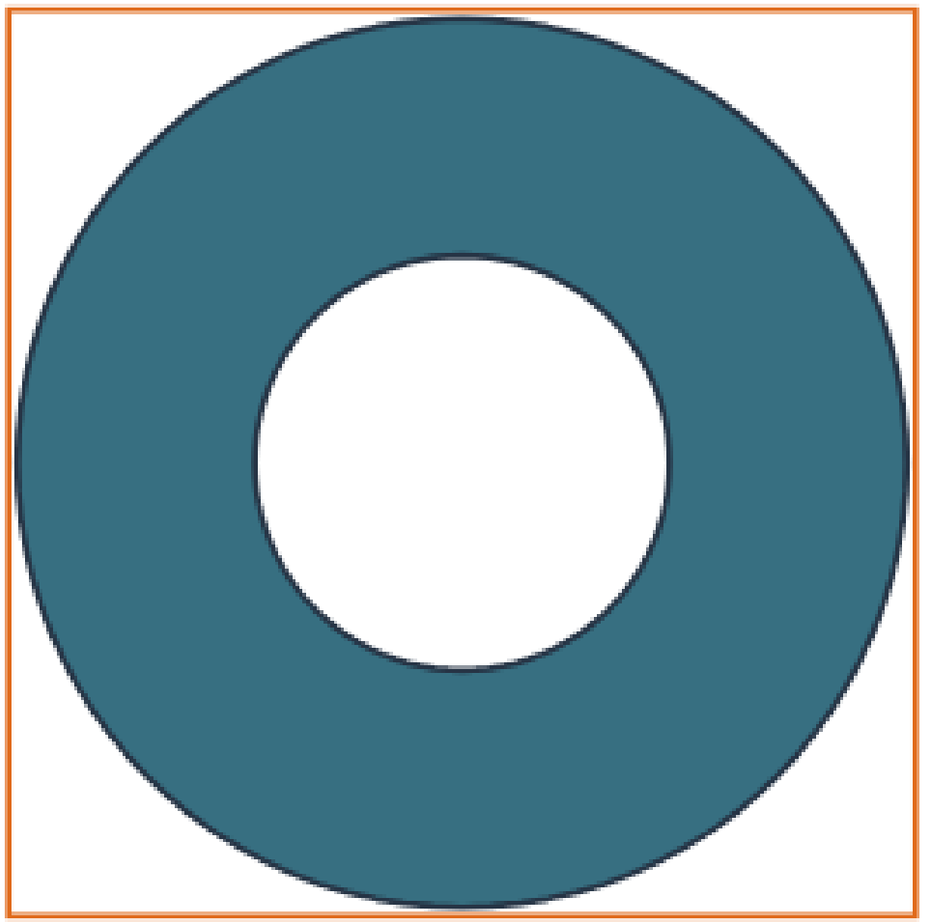

Dois círculos concêntricos.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 03

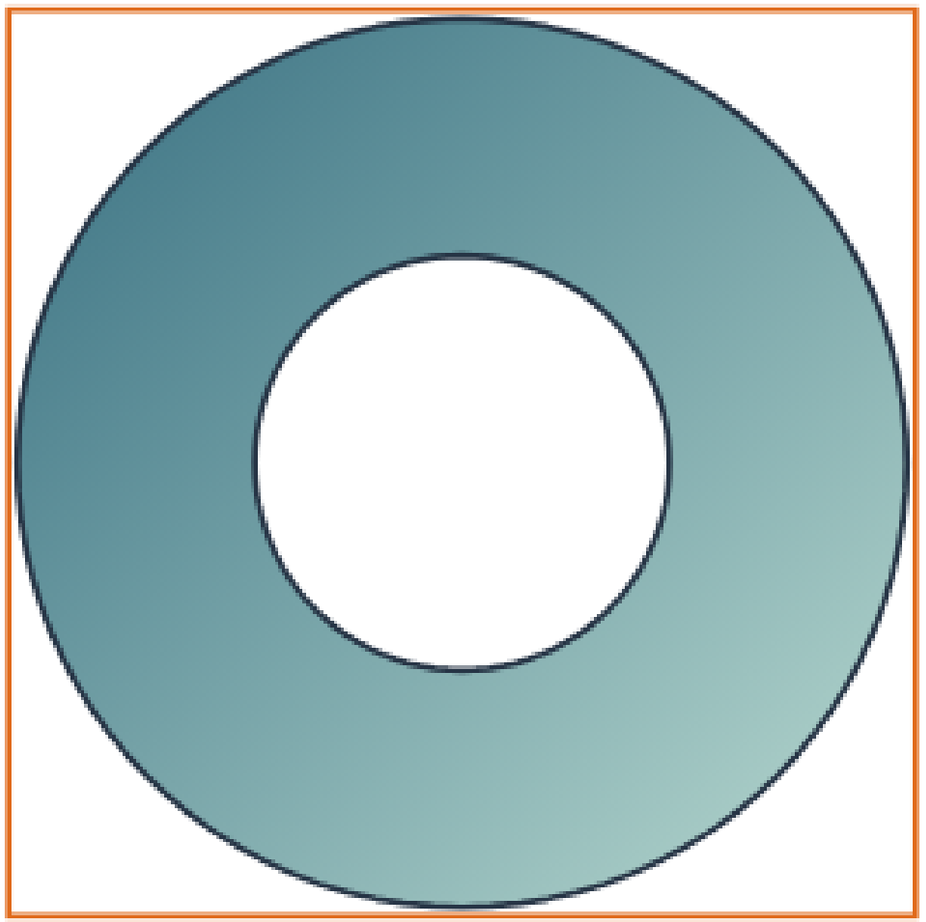

Subtração: anel com furo real no vetor.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 04

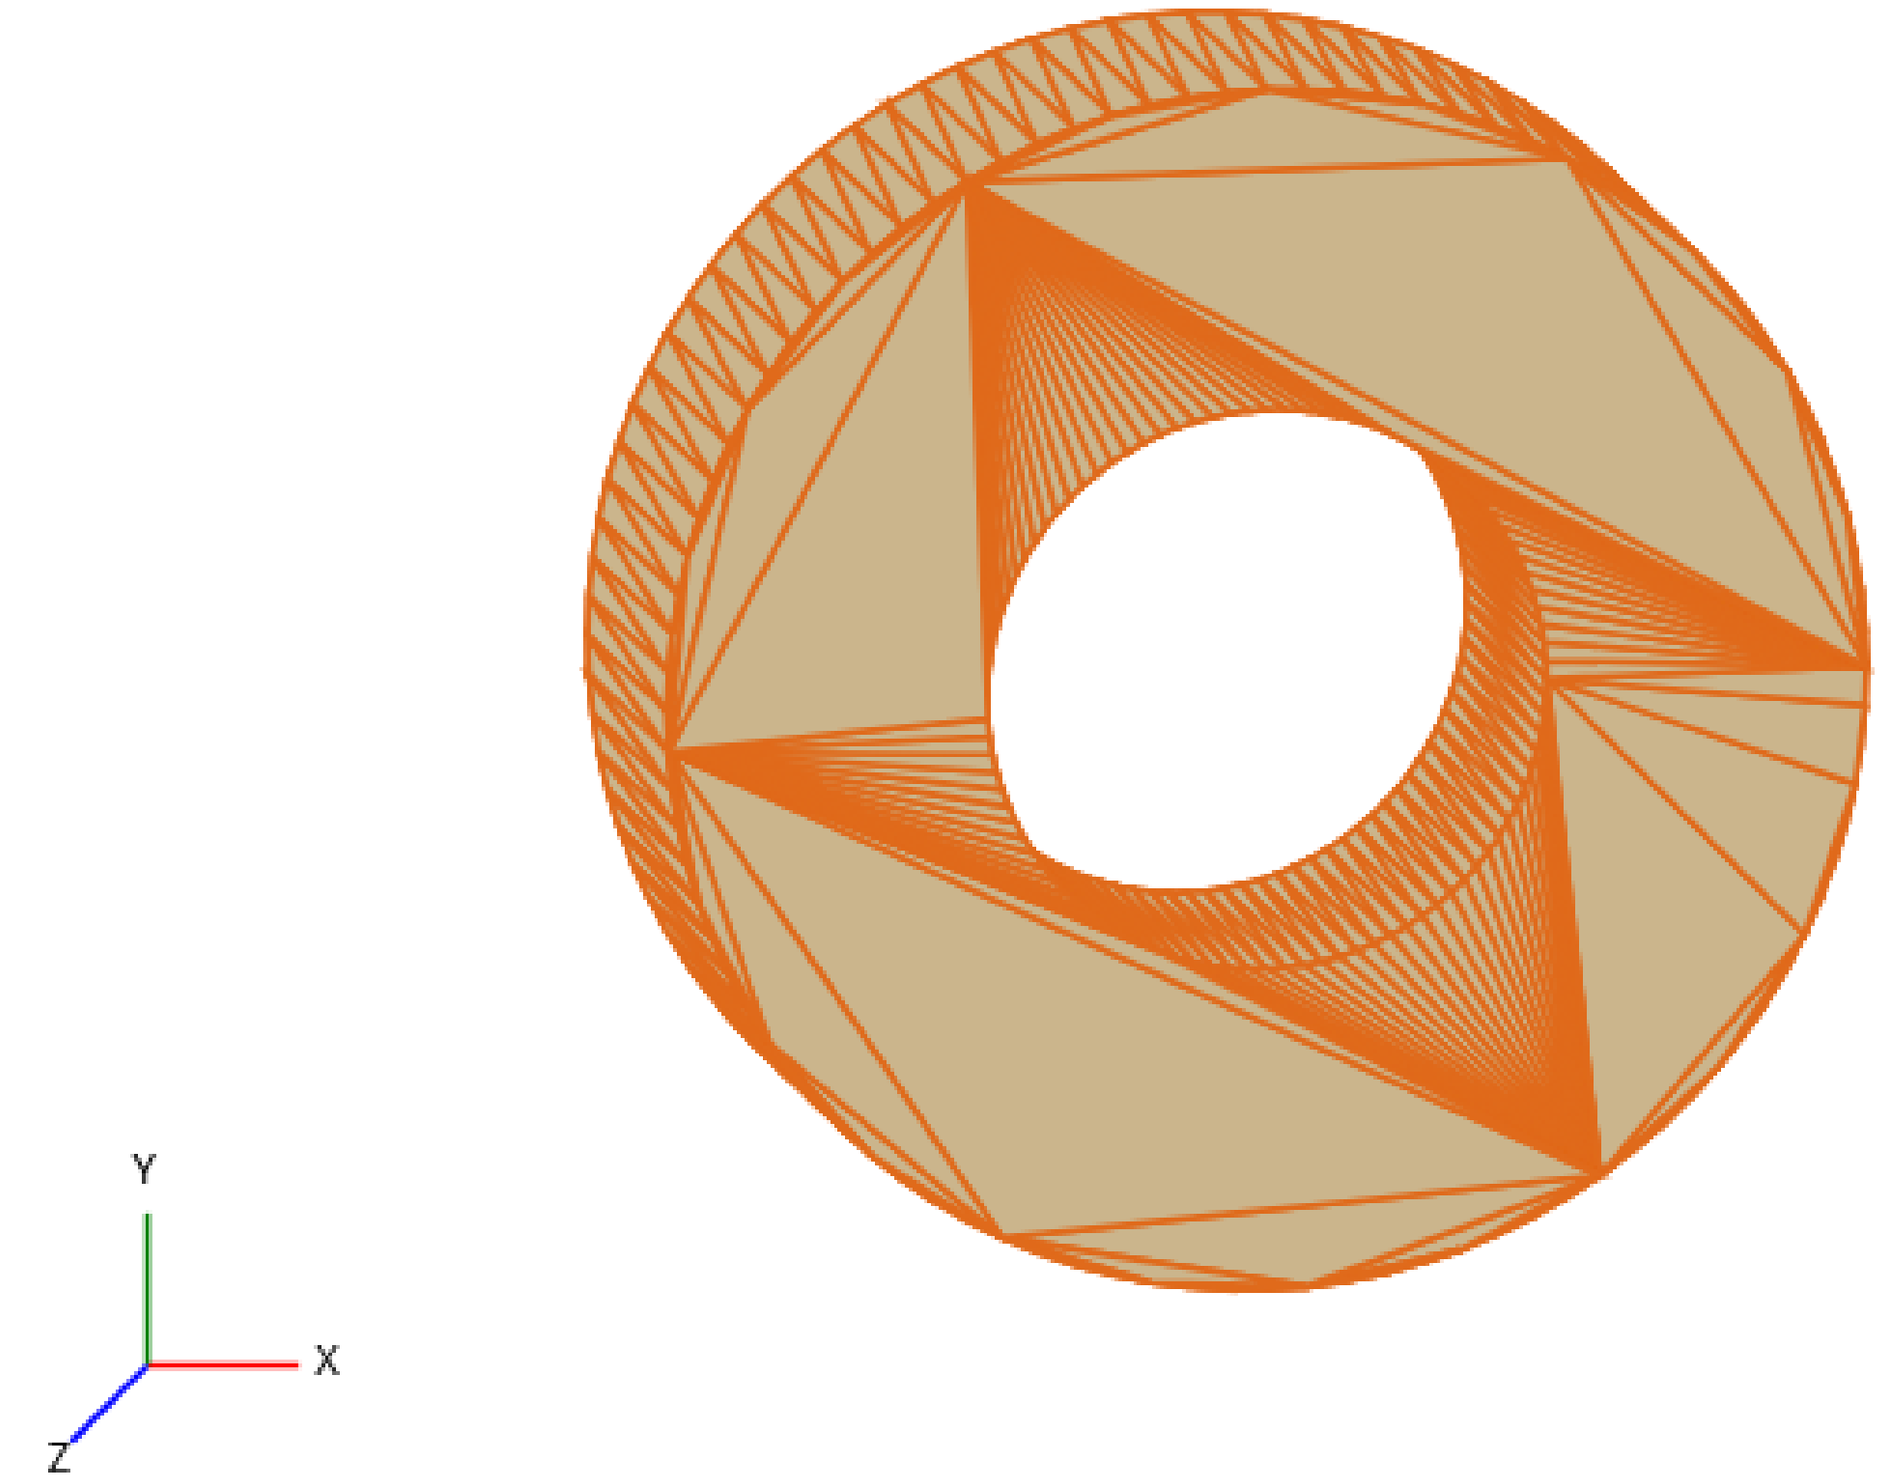

Gradiente preservando abertura.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 05

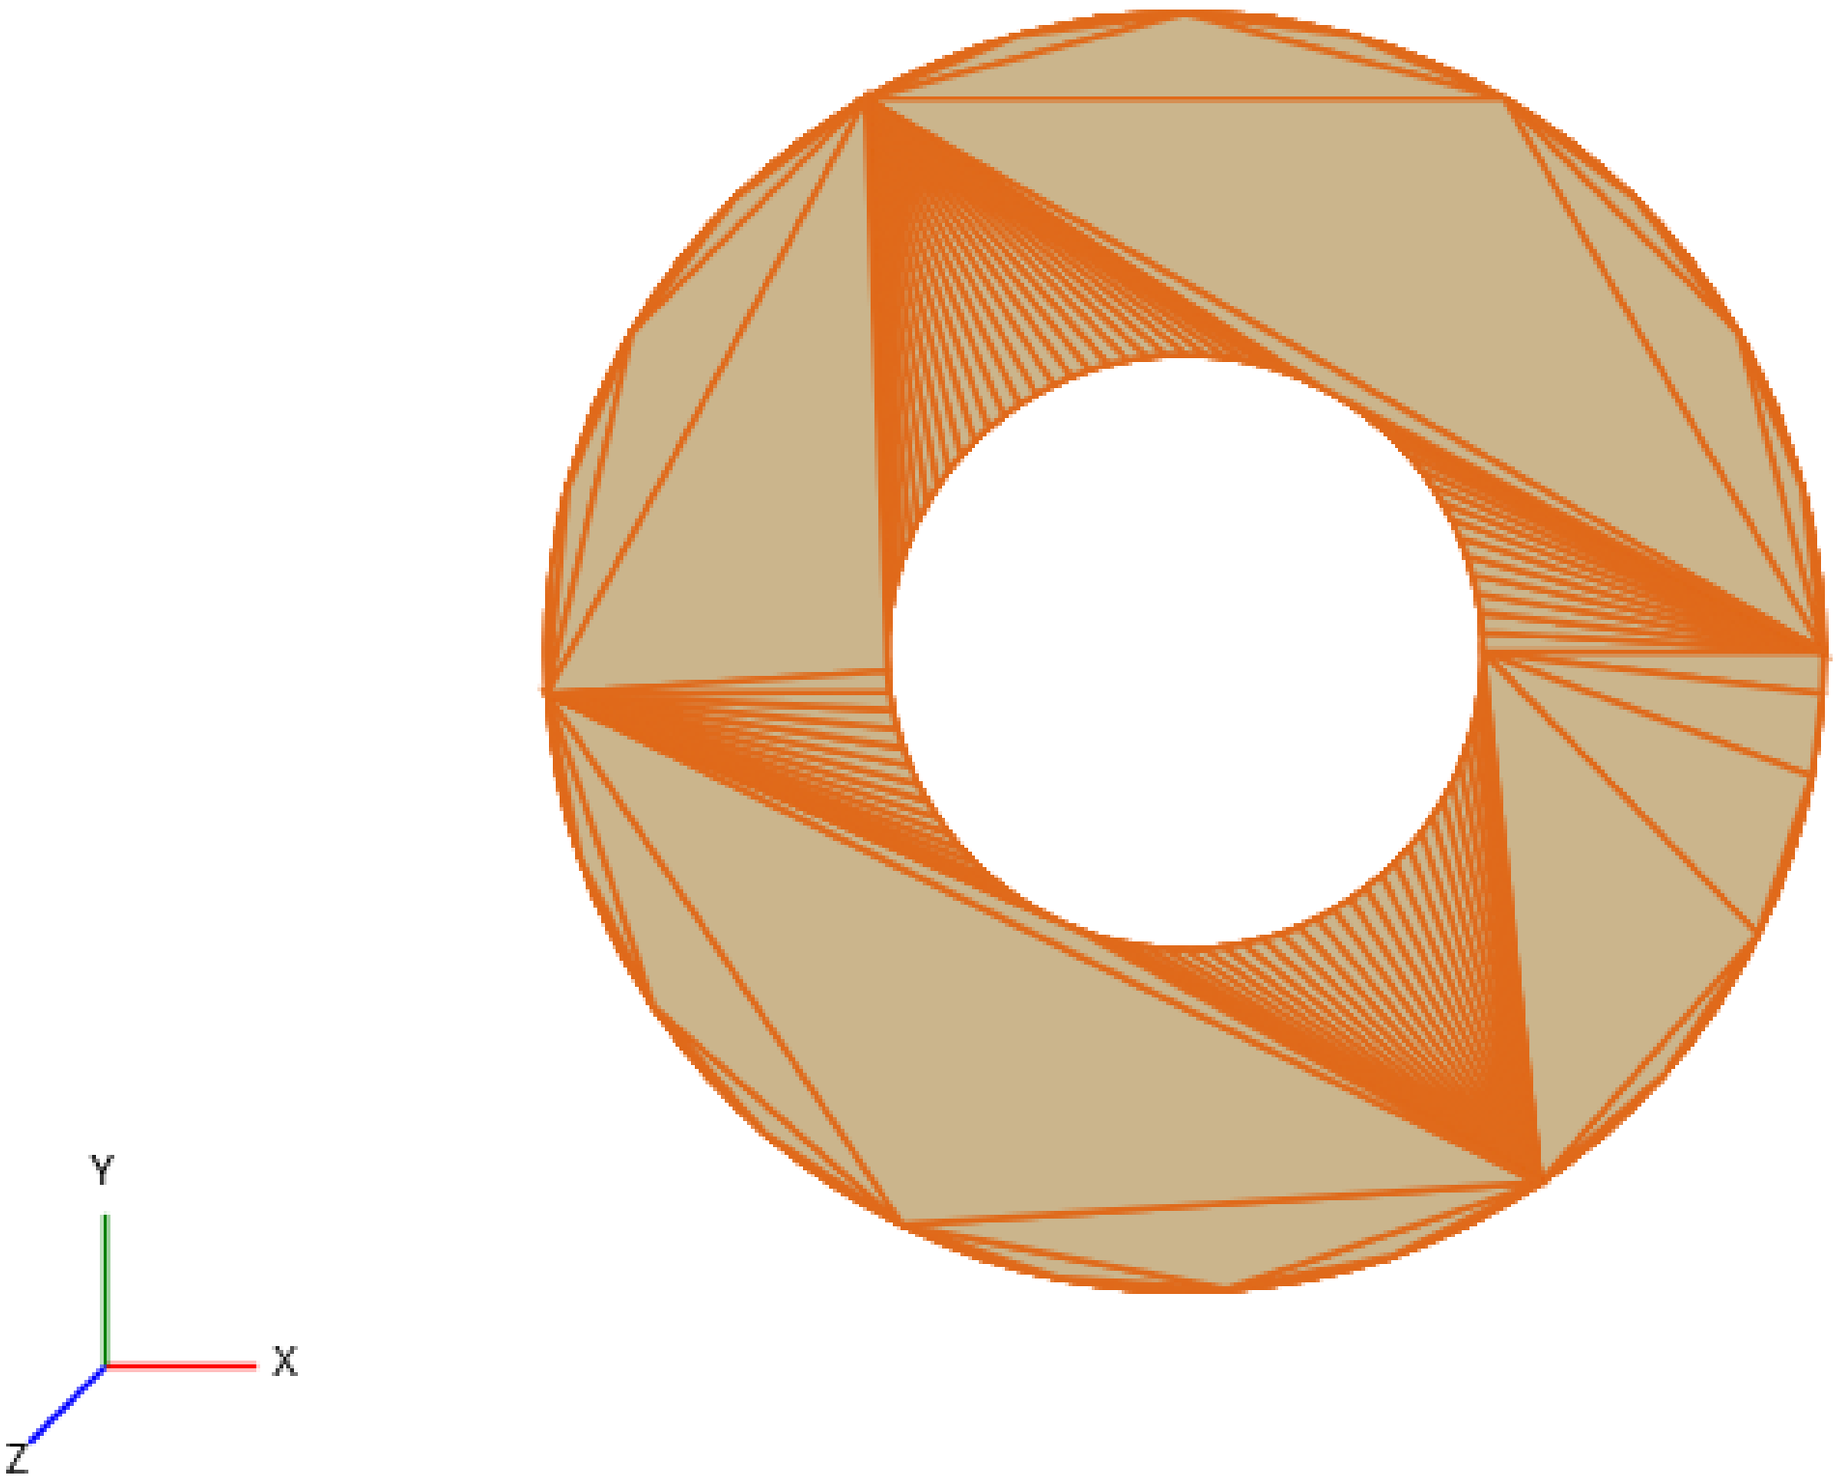

Extrusão do perfil composto: peça 3D vazada.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 06

VPOINT no eixo Z: abertura vista de frente.

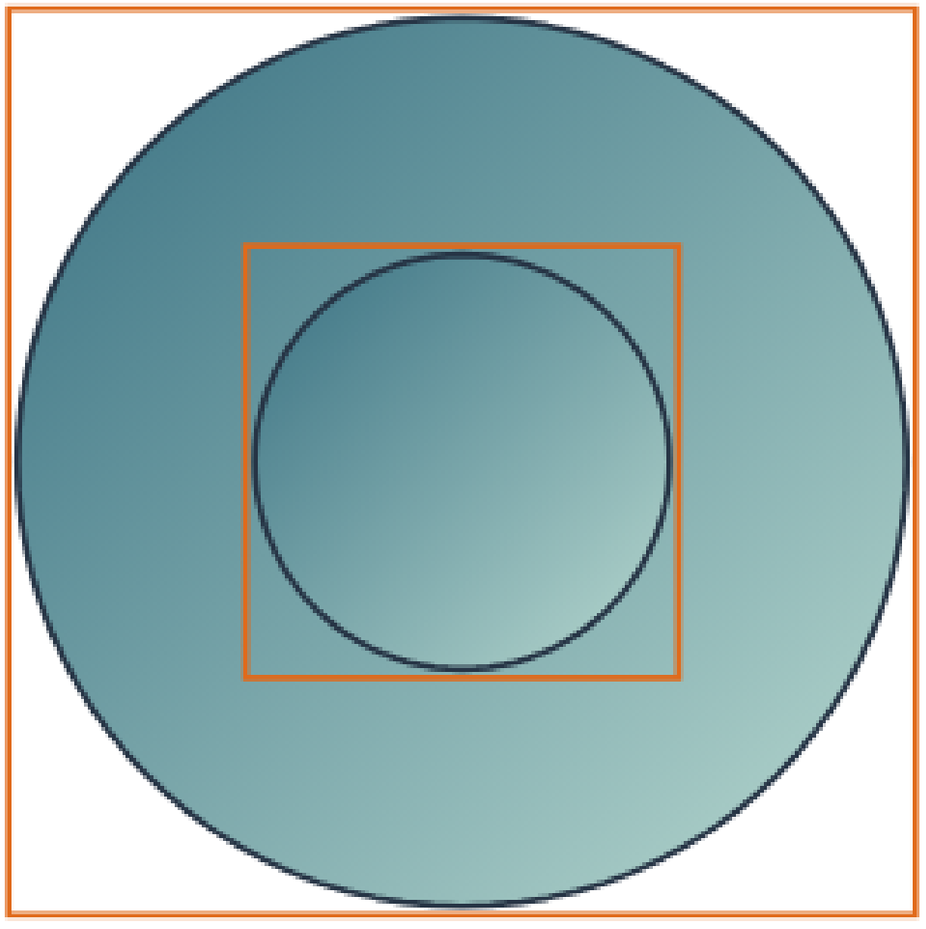

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 07

Liberar caminho composto: contornos independentes.

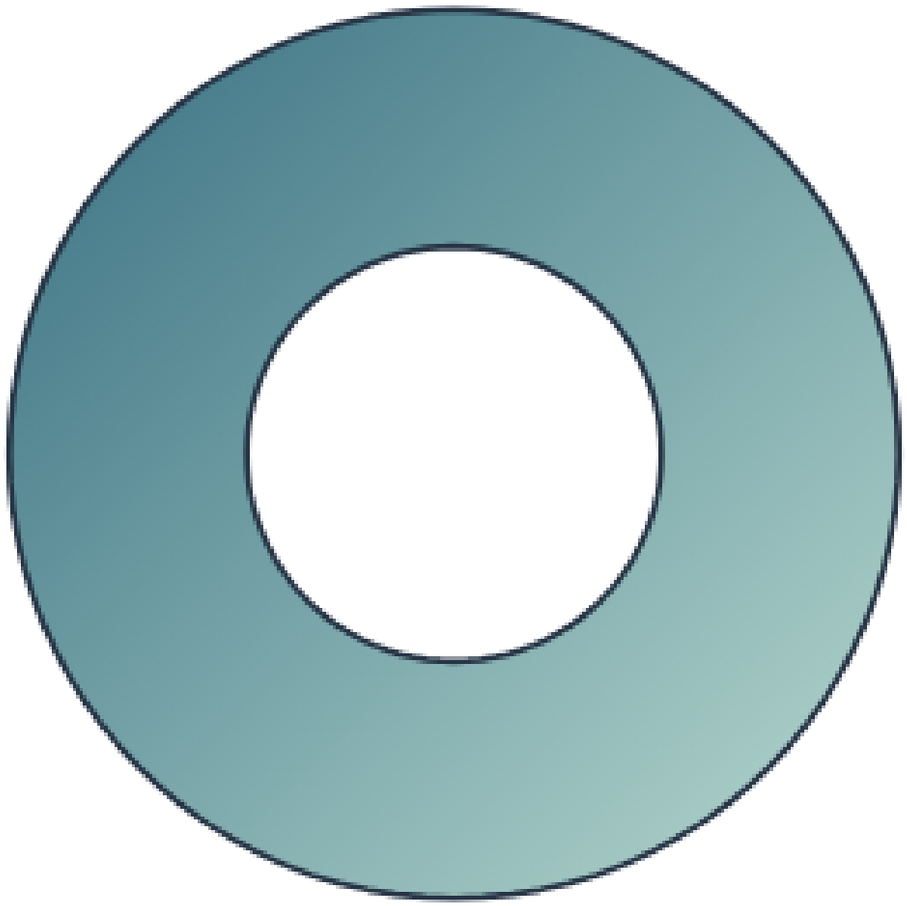

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 08

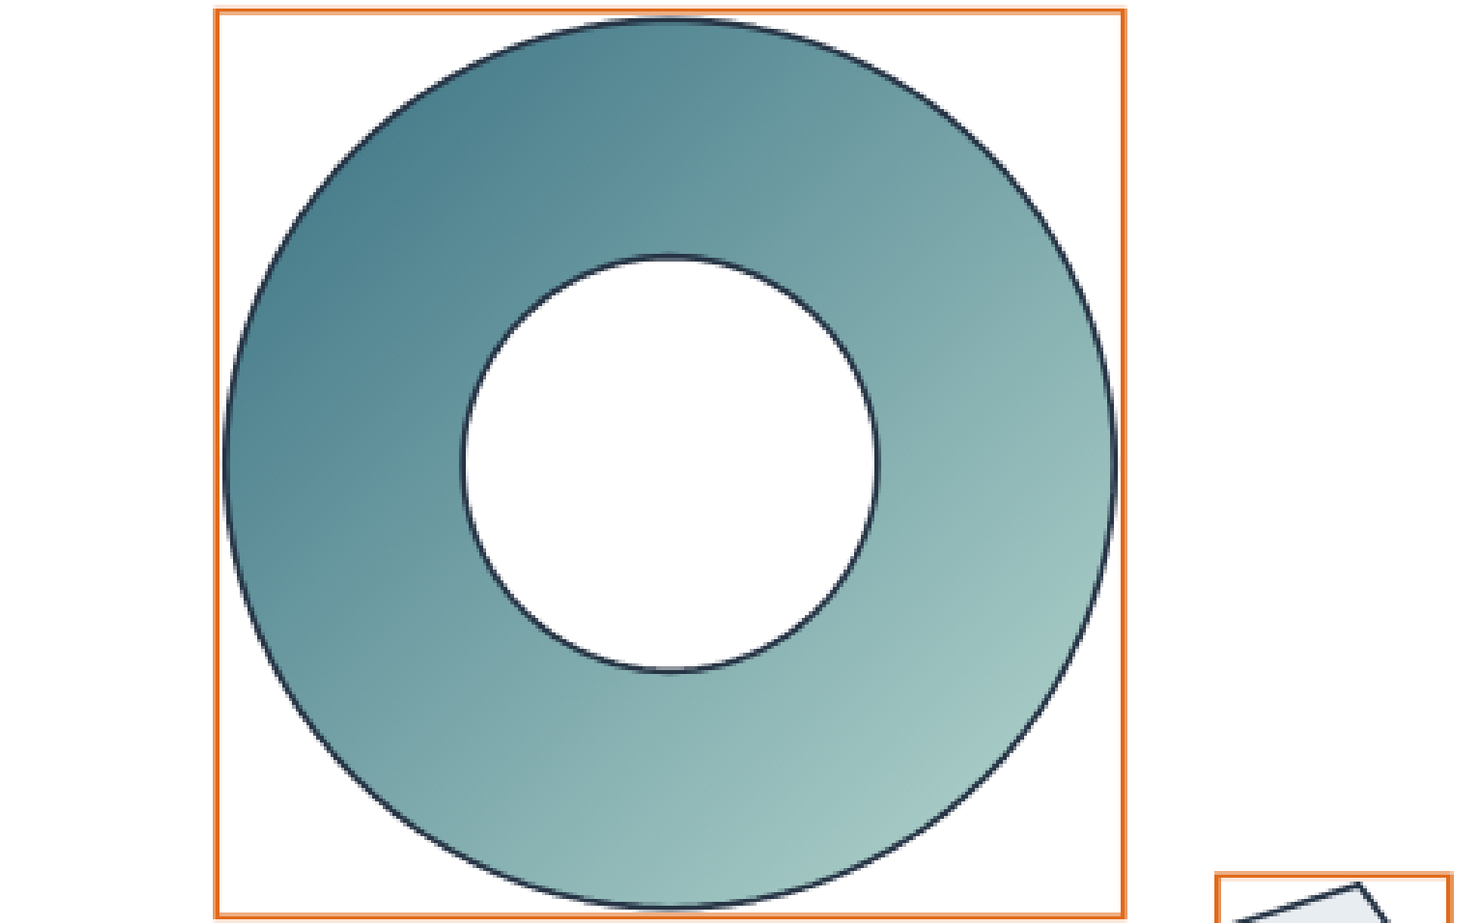

Desfazer restaura o caminho com furo.

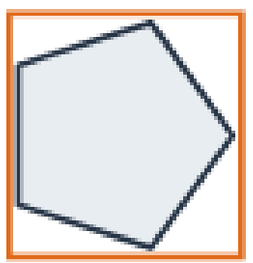

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 09

Agrupar anel, retângulo e polígono.

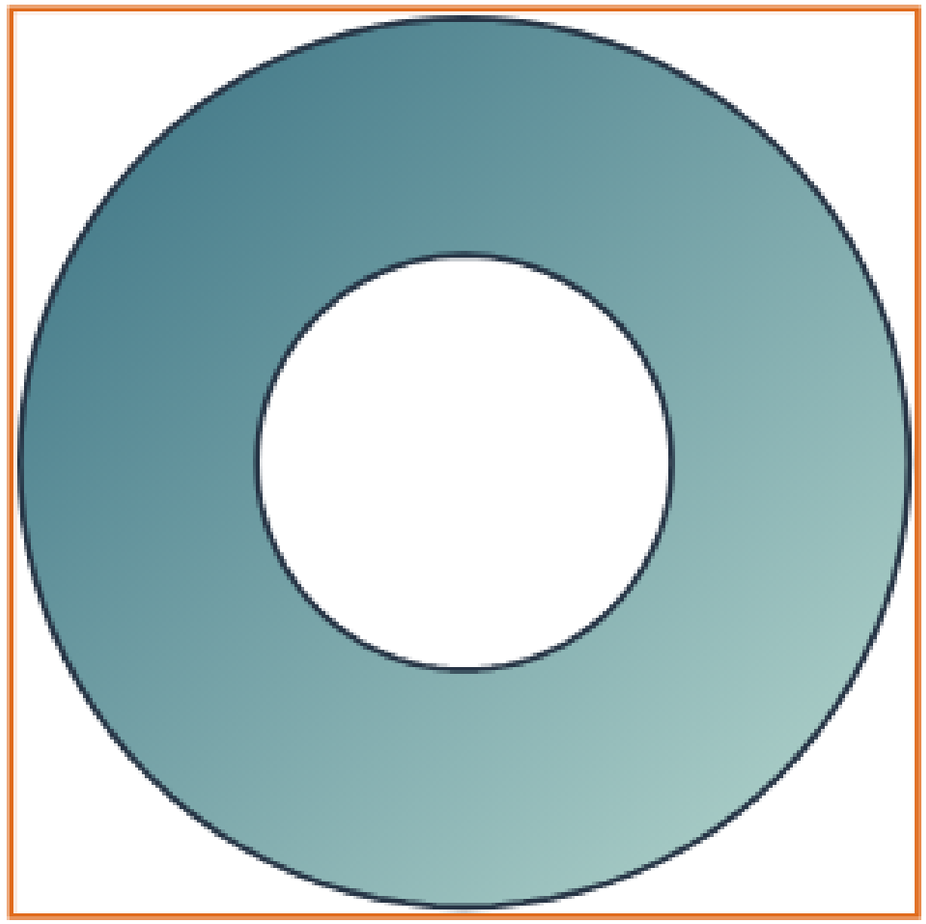

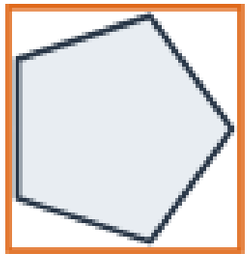

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 10

Mover o grupo: todos avançam 20 em X e 10 em Y.

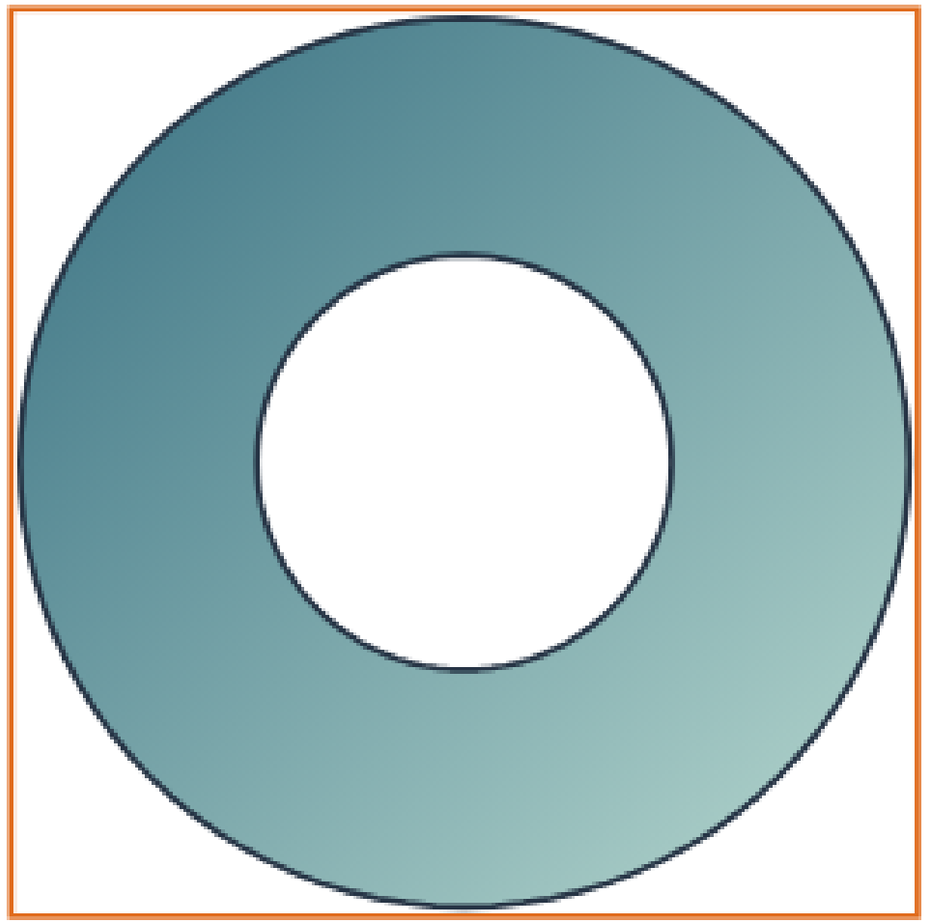

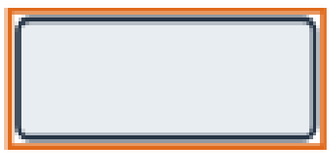

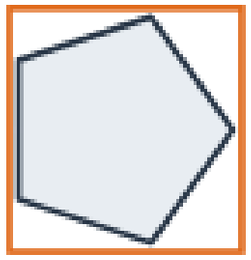

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 11

Desagrupar preservando as coordenadas.

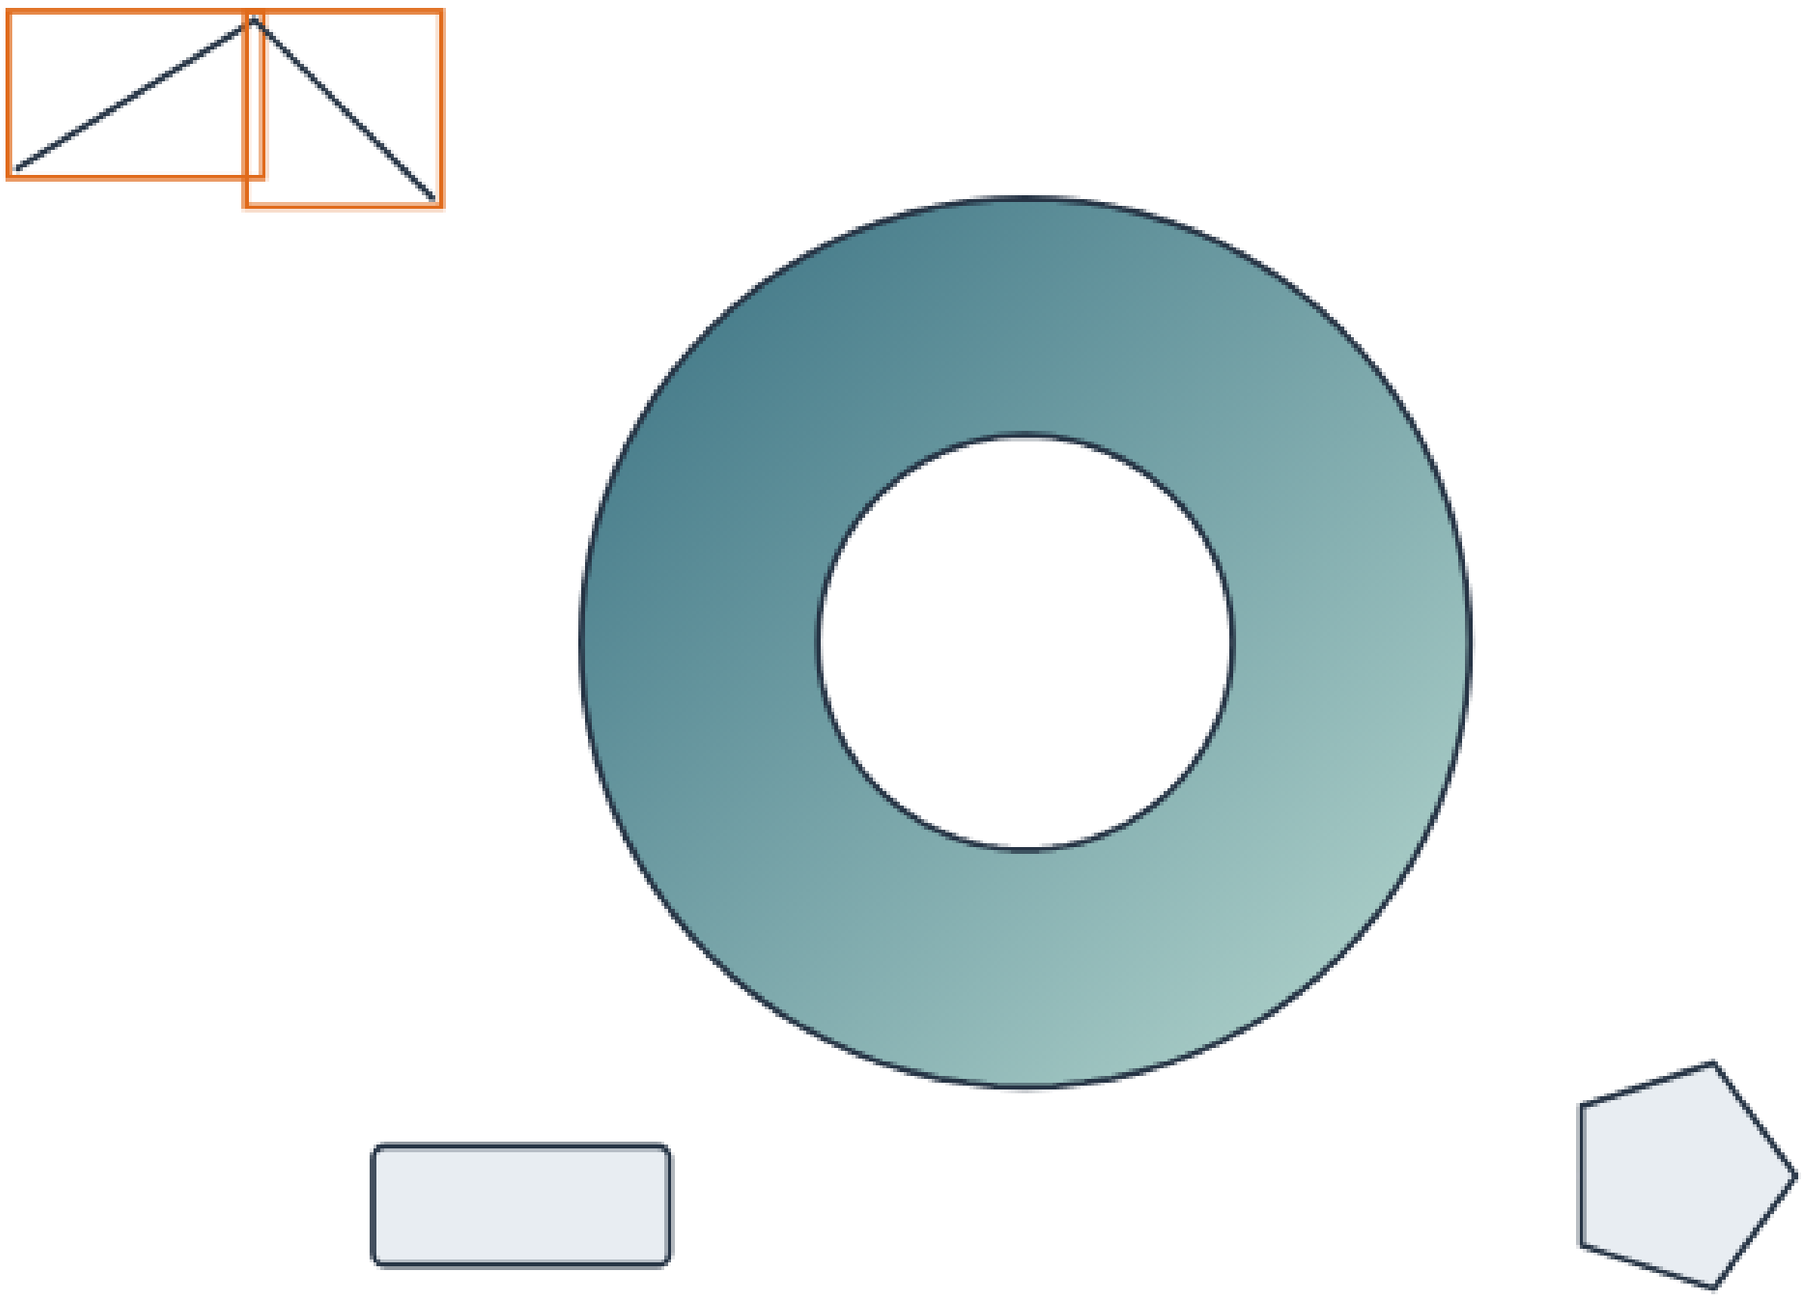

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 12

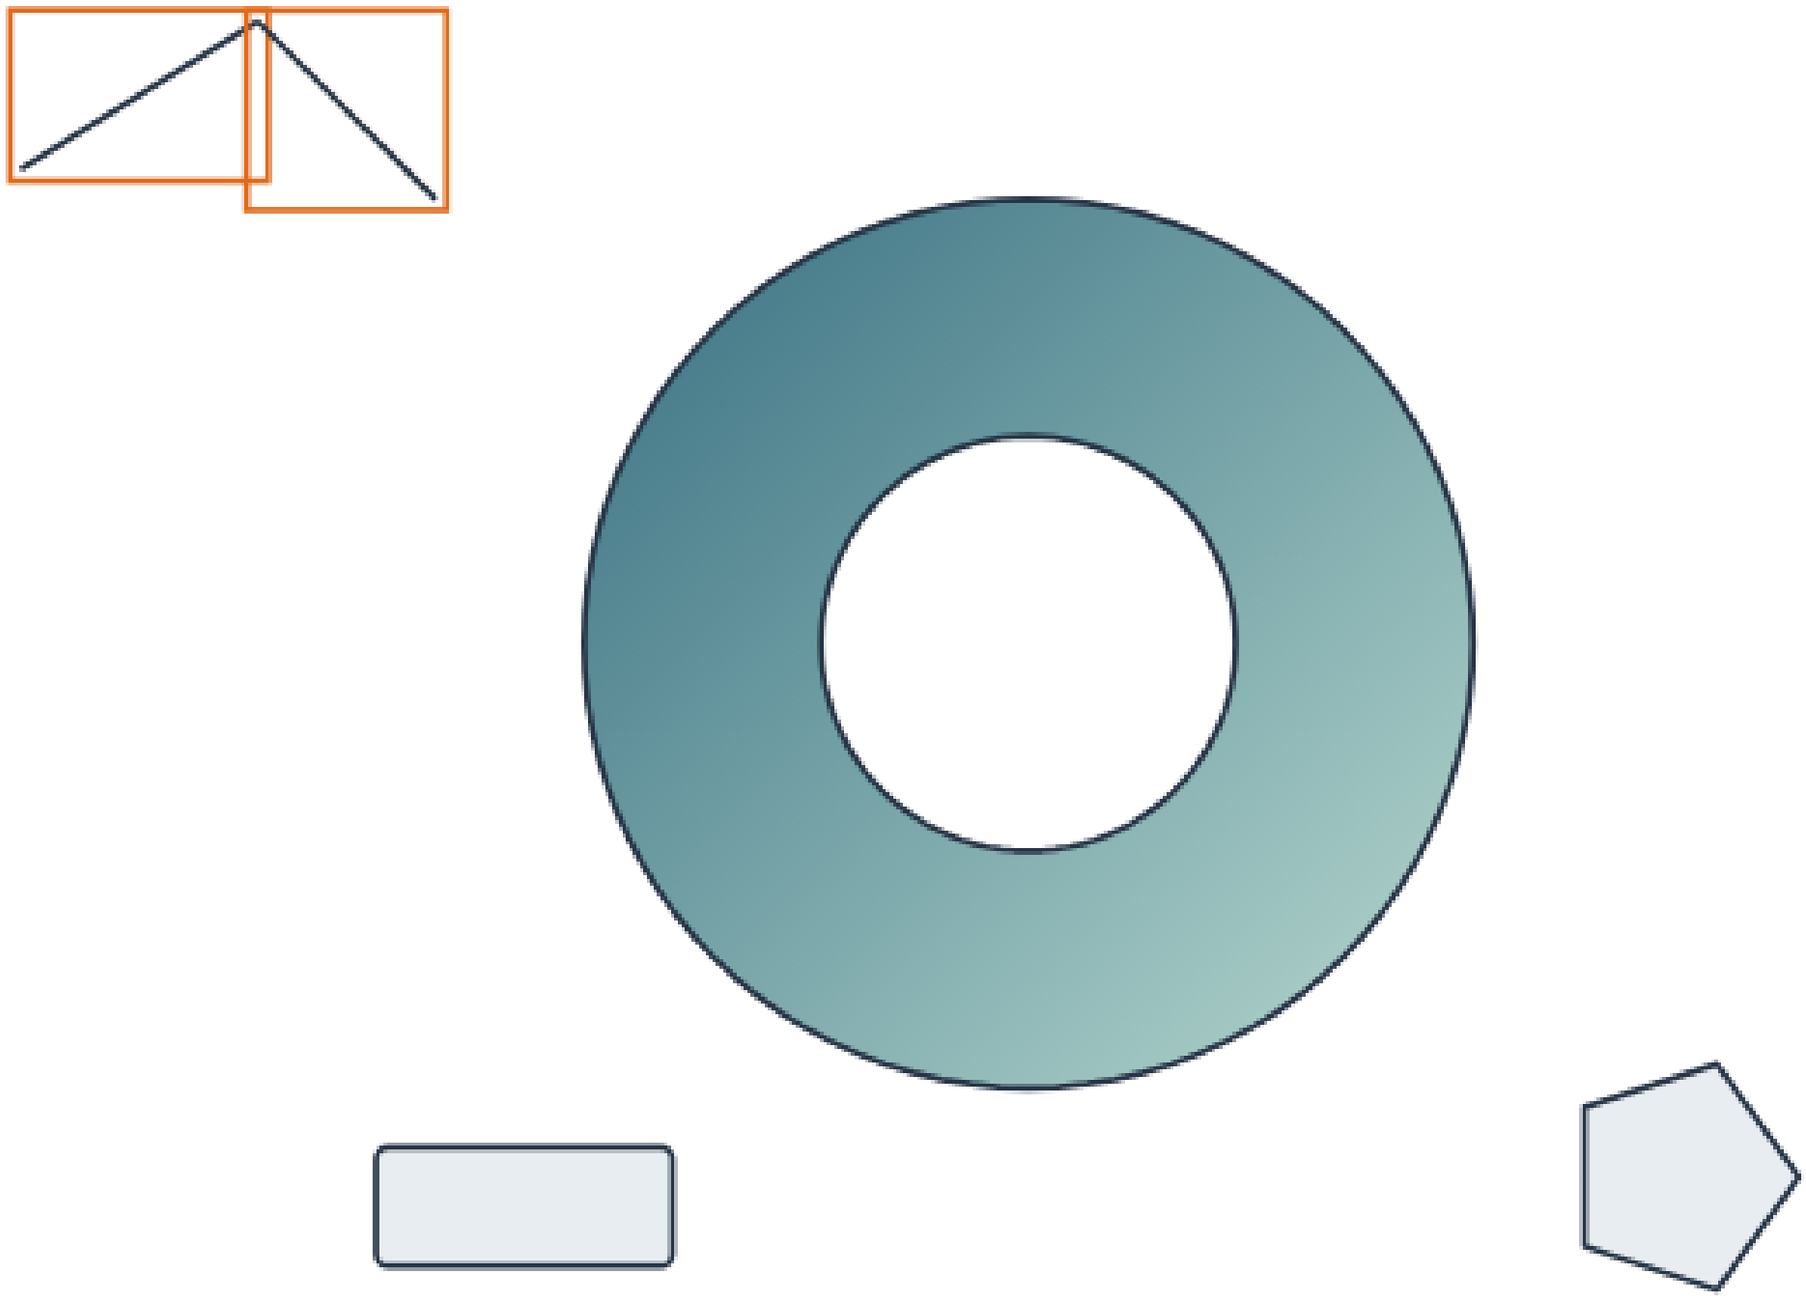

Tesoura por âncora: dois trechos da polilinha.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 13

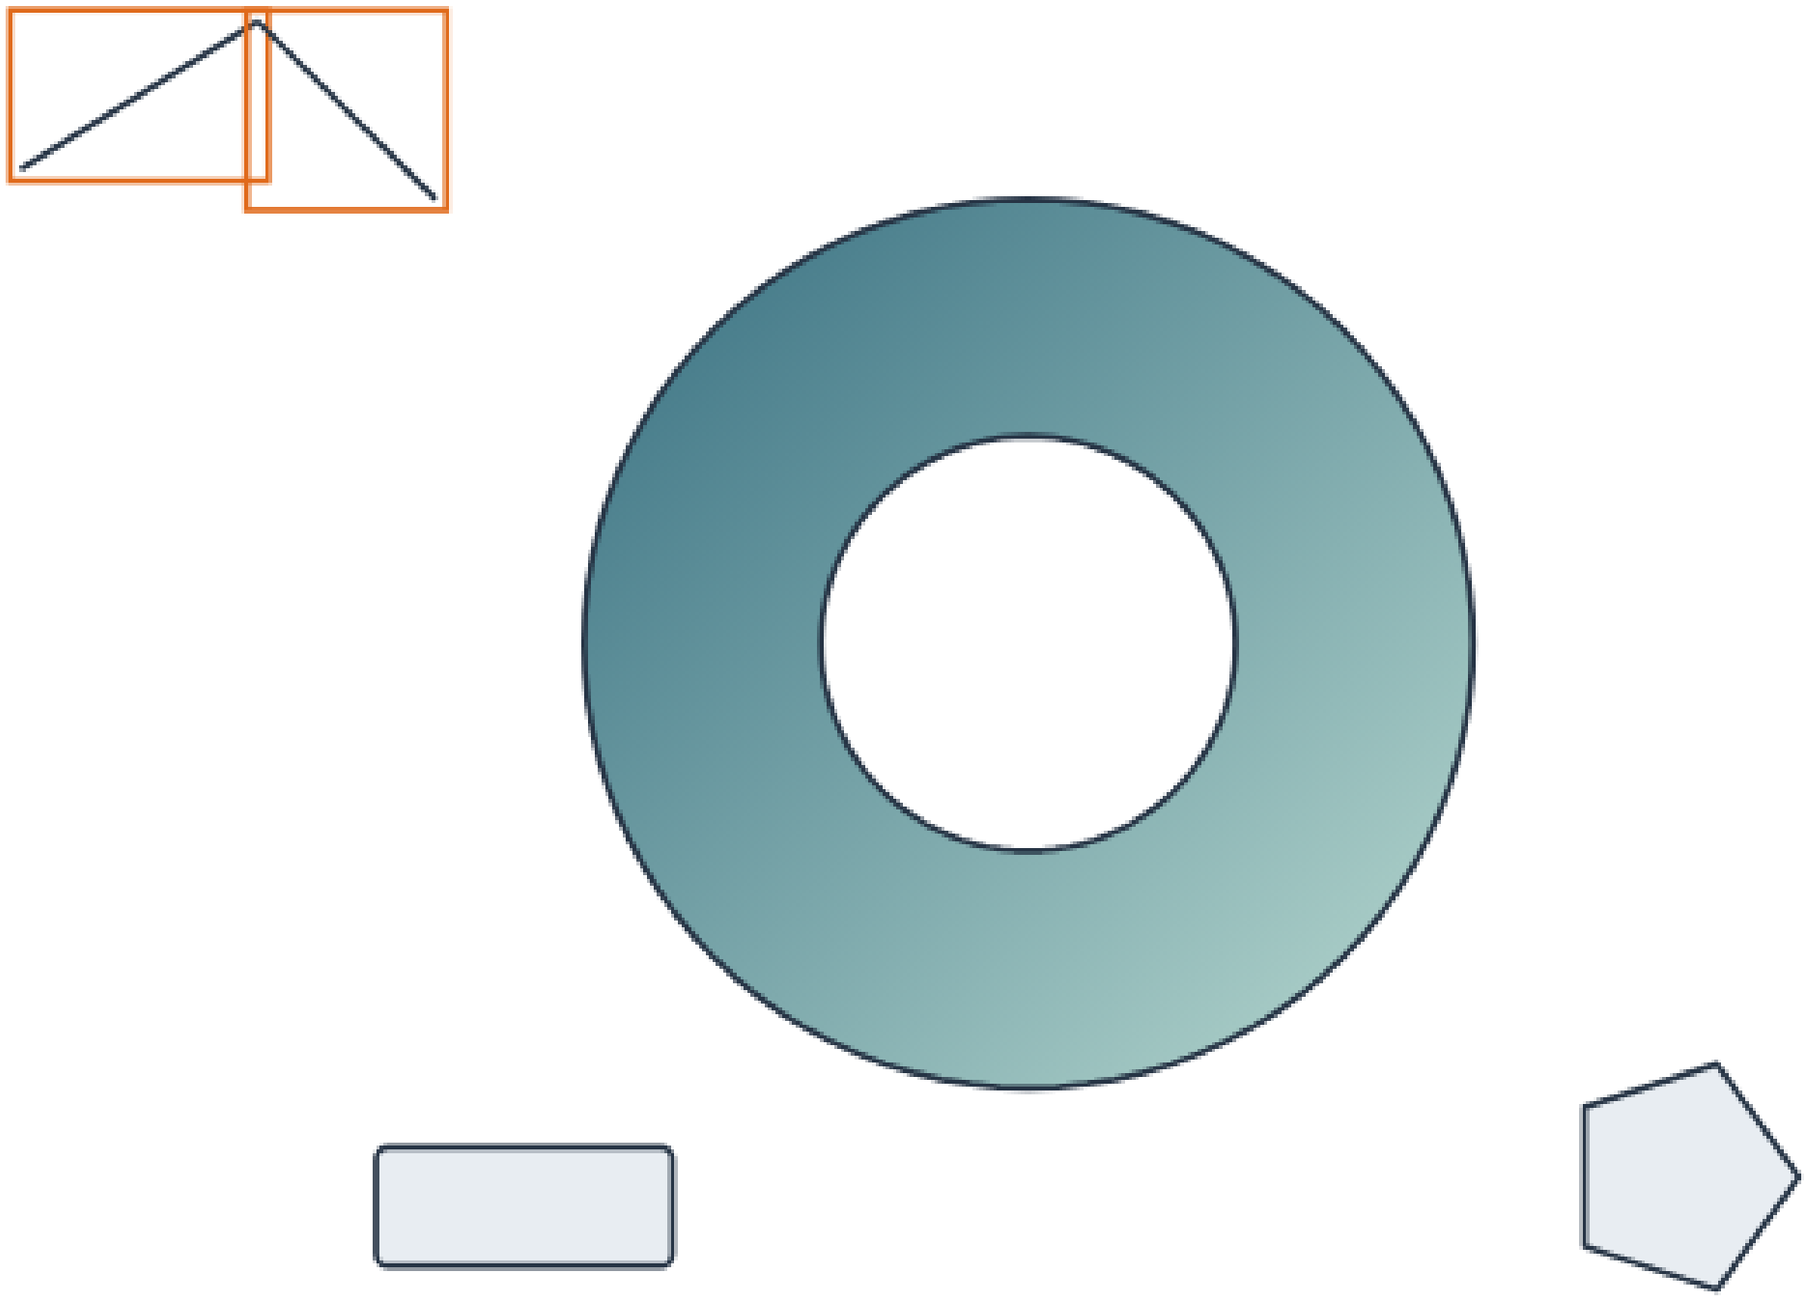

Expandir os traçados abertos em contornos.

Captura real local; sem chamadas IA. Limites e validação de volume no README.

Work Station — caminhos compostos — 14

Reimportar o arquivo: furo e detalhes preservados.

Captura real local; sem chamadas IA. Limites e validação de volume no README.
